Assignment: Exploring WHERE and ORDER BY

Question 1:

Retrieve a list of user information with their name and date of registration who uses android phones. First look at the structure of the user_info table in database and then write your query.

Solution:

SELECT name, registration_date, operating_system

FROM user_info

WHERE operating_system = "Android";

Question 2:

Edit your query above to find out users who have registered on or after 14th of july and sort the list of users in ascending order.

Solution:

SELECT name, registration_date, operating_system

FROM user_info

WHERE operating_system = "Android" AND registration_date >= '2023-07-01 12:00:00';
